

THE FREE WORD!

According to (O.K.W.) O.K.W., around 5,000 English planes have been shot down to the present day!

According to D.N.B., only 200 planes have come from Canada!

The island is hermetically sealed and its industry is almost entirely destroyed!

Upon outbreak of the war, England possessed 3,500 planes, according to *Schlag nach über England*.

So what are the English using to attack us night after night? And still getting as far as Berlin despite icing up, despite our exemplary anti-aircraft forces (?), and despite us possessing the best fighter pilots in the world, and also getting to even more distant areas??

The Italians are fleeing in Albania and Africa.

Italian planes are being deployed against the British Isle. While in Italy, Albania, and Africa, the English pilots are flying new raids all the time and thus accelerating the collapse of the Italians allied to us for better or for worse!

WHO has the real lack of planes!?!?!?!?!?

German people! Consider that even if we defeat England and then come to an agreement (?) with our allies, one day the oppressed peoples will rise up and shake off the Nazi yoke! Is their foe not also our foe?

We do not want to oppress other peoples!

We have been robbed of all rights! They told us stories of the honor of labor only to all the more easily make us into slave laborers and cannon and bomb fodder with no will of our own!

Now we are supposed to risk our necks for the gentlemen of industry and their megalomaniac Nazi plutocratic spear carriers!

For how much longer!?!?!?

We demand a just and thus lasting peace!

We demand the complete seizure of war profits and the expropriation of the armaments industry to prevent further wars!

We demand freedom of opinion and religious faith!

We demand freedom of labor!

We demand a true representation of the people!

German, pledge yourself to our slogans!

Spread our slogans! If you are in possession of a typewriter or duplicating machine, then make several copies of this flyer!

Not one penny in the begging boxes of the Hitler plutocracy!

Workers in industry, work more slowly!

Prevent impulsive comrades from taking this flyer to the police. For they would make themselves traitors to the German people and only arouse police suspicion against themselves and their comrades.

For freedom, bread, and peace!
War on the insane war!

Hitler's victory—never-ending war!
People's victory—an end to war!

THE GERMAN PEACE FRONT!
THE GERMAN PEACE FRONT!
